PORTAMIX™

Many users have reported a major reduction in physical effort and time when using Portamix Mega Hippo.

“The team was able to install areas of up to 1,000 square metres of body coat, including a full broadcast of quartz in as little as 55 minutes. Use of the Portamix machines saved time, effort, manpower and the cost of hundreds of disposable buckets.”
—Degafloor UK

Convenient wheeled base enables mix to be delivered quickly to the required location with excellent control. Ideal for mixing in bulk then dispensing into small containers. Pre-tinted material is easily blended.

**Saving you time,
making you money.**

MIXED BY INNOVATION

PORTAMIXTM

MEGA HIPPO

KEY FEATURES

- Mixes, delivers and spreads material quickly with excellent control
- Handles wide range of construction compounds
- Easy operation by one person
- Reduces time, effort and labour costs
- Thorough mixing, blending and placement without mess
- Dust extraction port to allow vacuum connection to reduce dust hazard while mixing
- Easy to clean out

Well balanced design – one person can mix, transport and pour with ease and precision – reducing down time and material waste.

These versatile machines have proven on-site performance to boost productivity and profitability.

Screeds & grouts

Sealants & adhesives

Acrylics & resins

Plasters & colours

Penton Media's RER 2010 Annual Innovative Product Award For Concrete-Working Equipment

SPECIFICATIONS

Bowl capacity	6 x 20kg mix plus water (85l/160kg)
Mixing paddle	TW225D large dual Helix
Motor	1800W 2-speed, RCD protected
Tilting cradle	Balanced for easy operation
Weight	49kg
Design	NZ Patent No. 512632 All IP rights reserved. NEW DESIGN PATENTS PENDING

PH705 RIMLESS LINER

Mix consecutive batches without downtime.

- Resilient, pliable liner is easily cleaned
- Alternating liners prevents cross contamination
- Extends life of canister
- Flexible – easily breakout compound buildup
- Ideal for resins, epoxies and other difficult-to-clean materials
- PH705 Mega Hippo Replacement Liner sold separately

PH718 LID

Make your Hippo that much better with an optional lid add-on.

- Safety – reduce likelihood of hands and foreign objects getting into the canister.
- Dust control – reduce dust caused by the mixing process escaping from the canister. This improves operator comfort and helps meet health and safety regulations in some countries.
- Cleanliness – reduce splashing material from leaving the canister and dirtying your site space.

HELIXES

TW225
½ batch helix
Mix 2-3
20kg bags

TW225F
Full batch helix
Mix 5-6
20kg bags

Portamix helixes are designed with a special spiral ribbon and side bars.

They lift and shear the product quickly and efficiently to produce a consistent mix and thorough blending of colours and additives.

The large 225mm diameter of the paddle produces an increased peripheral speed which eliminates the need for high RPM mixing and helps to prevent flash curing.

APPLICATIONS

- Flooring
- Plastering
- Coating
- Blending
- Batching
- Screeds
- Grouts
- Mortars
- Colours
- Textures
- Sealants
- Adhesives
- Cementitious
- Acrylics
- Resins
- **and many more!**

OPTIONS

F Series wheels

Easy roll mobility – ideal for flat floors. Allows accurate placement of material – pour and spread at the same time.

X Series wheels

Ideal for rough terrain. Increased pouring height – pour directly into buckets or carts.

Vacuum port

Optional 5m x 50mm hose, suitable with Standard Canister and Canister with Liner

PMP80 PELICAN

THE ULTIMATE TRANSPORT CART

AT A GLANCE

- Holds a full Mega Hippo mix
- Accurate pour control with large handle and defined pour spout
- Easy clean canister with no rim or edges
- Castors with 'Splatter Guards' to ensure bearings remain clean
- Easy-roll manoeuvrability with all swivelling castors
- Compact design for use through standard doorways
- Add a motorised helix for increased efficiency

Taking you to the next level of performance.

The ultimate transport cart to compliment the Portamix Mega Hippo. If you want to move it and pour it – meet Pelican! Like Mega Hippo, Pelican has a well-balanced design that allows one person to transport and pour with ease and precision.

The hand mixer can be mounted on the Pelican by a motor mount accessory or it can be held by an operator. It is recommended to use the PortaMix EM125S Hand Mixer* with 140mm paddle.

*Please visit the Portamix website for to view EMS125S product details.
